Dear Chris

As discussed I am happy to offer you a letter of recommendation regarding your Digital DJ computerised music system.

For the previous four years your Digital DJ system has been operating in seven of our venues ranging from fine dining restaurants, pizzeria's, City Centre young persons licensed venues and large drive too outlets.

Your music system has eliminated the need for live DJs with the exception of one city centre venue which continues to use a DJ on certain nights but not until much later in the evening.

All Digital DJ systems have proven themselves to be reliable and maintenance free, taking the headache out of creating the correct ambience for the venue through the music quality, content and versatility.

I would therefore not hesitate to recommend this system to any licensed operator.

Yours sincerely

CARRELL NICHOLSON
GENERAL MANAGER
